Independent Auditor's Report

**To The Honorable Members of the Board of Supervisors
County of Sussex
Sussex, Virginia**

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of and for the year ended June 30, 2006, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Sussex, Virginia's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of June 30, 2006, and the respective changes in financial position, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2006, on our consideration of the County of Sussex, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, budgetary comparison information, and Schedule of Pension Funding Progress as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America.

We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Sussex, Virginia, basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and other statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Sussex, Virginia. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and other statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**To the Honorable Members of the Board of Supervisors
To the Citizens of Sussex County
County of Sussex, Virginia**

As management of the County of Sussex, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2006. Please read it in conjunction with the County's basic financial statements, which follow this section.

Financial Highlights

Government-wide Financial Statements

- ▶ The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$21,232,466 (net assets).

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported expenditures and other financing uses of \$2,988,481 in excess of revenues and other financing sources (Exhibit 5) after making contributions totaling \$7,657,686 to the School Board.

- ▶ As of the close of the current fiscal year; the County's funds reported ending fund balances of \$9,844,956, a decrease of \$2,988,481 in comparison with the prior year.
- ▶ At the end of the current fiscal year, unreserved fund balance for the general fund was \$5,417,270 or 22% of total general fund expenditures and other uses.
- ▶ The combined long-term obligations decreased \$3,806,294 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Sussex, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Sussex, Virginia is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Sussex, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has two major governmental funds – the General Fund and County Capital Projects Fund.

Fiduciary funds - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$21,232,466 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Assets:

<u>County of Sussex, Virginia's Net Assets</u>		
	<u>Governmental Activities</u>	
	<u>2006</u>	<u>2005</u>
Current and other assets	\$ 10,350,572	\$ 13,244,157
Capital assets	<u>29,276,981</u>	<u>32,736,721</u>
Total assets	<u>\$ 39,627,553</u>	<u>\$ 45,980,878</u>
Current liabilities	\$ 541,668	\$ 246,101
Long-term liabilities outstanding	<u>17,853,419</u>	<u>21,659,713</u>
Total liabilities	<u>\$ 18,395,087</u>	<u>\$ 21,905,814</u>
Net assets:		
Invested in capital assets, net of related debt	\$ 11,651,507	\$ 11,364,426
Unrestricted	<u>9,580,959</u>	<u>12,710,638</u>
Total net assets	<u>\$ 21,232,466</u>	<u>\$ 24,075,064</u>

Government-wide Financial Analysis (Continued)

The County's net assets decreased by \$2,842,598 during the current fiscal year. The following table summarizes the County's Statement of Activities

		Governmental Activities	
		2006	2005
Charges for services	\$	10,155,481	\$ 9,707,376
Operating grants and contributions		4,330,399	4,452,212
Capital grants and contributions		438,841	-
General property taxes		6,107,518	5,644,934
Other local taxes		1,044,356	1,039,419
Grants and other contributions not restricted		1,654,751	1,144,321
Other general revenues		925,556	458,416
Total revenues	\$	24,656,902	\$ 22,446,678

Change in net assets	\$	(2,842,598)	\$ (936,645)
Net assets, beginning of year		24,075,064	25,011,709
Net assets, end of year	\$	21,232,466	\$ 24,075,064

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$9,844,956, a decrease of \$2,988,481 in comparison with the prior year. Approximately 55% of this total amount constitutes unreserved General Fund balance, which is available for spending at the County's discretion.

The County Capital Projects Fund accounts for all major general public improvements. At the end of the fiscal year, the fund balance was \$3,992,049, all of which was designated for current or future capital projects.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were increases of \$1,591,766 and can be briefly summarized as follows:

- ▶ \$783,496 increase in health and welfare expenditures
- ▶ \$400,000 increase in education expenditures
- ▶ \$157,921 increase in public safety expenditures
- ▶ \$131,000 increase in public works expenditures
- ▶ \$ 61,000 increase in community development expenditures
- ▶ \$ 56,049 increase in general government administration expenditures
- ▶ \$ 2,300 increase in judicial administration expenditures

The increase in budgeted General Fund expenditures resulted in a decrease in the budgeted ending General Fund balance. During the year, budgetary estimates exceeded revenues and other financing sources by \$51,623. Budgetary estimates exceeded expenditures and other financing uses by \$1,607,056. The combination of the two resulted in a positive variance of \$1,555,433.

Capital Asset and Debt Administration

- ▶ **Capital assets** - The County's investment in capital assets for its governmental operations as of June 30, 2006 amounts to \$29,276,981 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

Long-term debt - At the end of the current fiscal year, the County had total bonded debt outstanding of \$17,625,474. Of this amount, \$12,405,403 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources (i.e., lease/revenue bonds, limited obligation notes).

The County's total debt decreased by \$3,806,294 during the current fiscal year.

Additional information on the County of Sussex, Virginia's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budgets and Rates

- ▶ The unemployment rate for the County tends to be higher than both the state's average unemployment rate of 3.1 percent and the national average rate of 4.6 percent.
- ▶ Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for the 2007 fiscal year.

The fiscal year 2007 budget decreased by approximately 7% and the real estate tax rate decreased from .65 to .48 per \$100 of assessed value due to a reassessment. The overall decrease in the budget is due to \$4,000,000 reduction in debt in 2006.

Requests for Information

This financial report is designed to provide a general overview of the County of Sussex, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, P.O. Box 1397, Sussex, Virginia 23884.

County of Sussex, Virginia
Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2006

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (2,988,481)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.	(3,459,740)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(45,147)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	3,746,821
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	(96,051)
Change in net assets of governmental activities	<u>\$ (2,842,598)</u>

The notes to the financial statements are an integral part of this statement.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies:

The County of Sussex, Virginia (the "County") is governed by an elected six member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection; sanitation services; recreational activities, cultural events, education, and social services.

The financial statements of the County of Sussex, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Management's Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

Government-wide and Fund Financial Statements

Government-wide financial statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Assets - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

Statement of Activities - The new government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many government's revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government's original budget to the current comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Sussex (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures

Blended Component Unit. The County has no blended component units at June 30, 2006.

Discretely Presented Component Units. The School Board members are elected by the citizens of Sussex County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2006.

C. Other Related Organizations

Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

The government-wide statement of activities reflect both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting of primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time other specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General Fund as a major governmental fund.

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.

Capital Projects Funds - Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

The County reports the following non-major governmental funds:

Special Revenue Funds: Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Fiduciary Funds - (Trust and Agency Funds) - account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds and Private Purpose Trust Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component unit are reported at fair value.

F. Investments

Investments are stated at fair value which approximates market; no investments are value at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$142,491 at June 30, 2006 is composed solely of property taxes.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	<u>Real Property</u>	<u>Personal Property</u>
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives.

<u>Assets</u>	<u>Years</u>
Building improvements	40
Furniture, Vehicles, and Office Equipment	5-20
Buses	10

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as “terminal leave” prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County’s policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 1—Summary of Significant Accounting Policies: (Continued)

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligation are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. Appropriations lapse on June 30, for all County units.

Expenditures and Appropriations

Expenditures did not exceed appropriations in any fund at June 30, 2006.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 3—Deposits and Investments:

Deposits

All cash of the primary government and its discretely presented component unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act (a multiple financial institution collateral pool), Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance. Under the Act, banks holding public deposits in excess of the amounts insured by FDIC must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. Savings and Loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. Deposits covered by the Act are considered insured since the Treasury Board is authorized to make additional assessments.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County’s rated debt investments as of June 30, 2006 were rated by Standard and Poor’s and the ratings are presented below using the Standard and Poor’s rating scale.

	<u>Fair Quality Ratings</u>	
	<u>AAAm</u>	
Local Government Investment Pool	\$	5,556,336
Money Market Mutual Fund		1,023,443
Total	\$	<u>6,579,779</u>

External Investment Pools

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Total General obligations, Component Unit - School Board	\$	<u>1,517,975</u>

Note 8—Closure and Post-closure Costs:

The County closed its two landfills and is liable for post-closure monitoring for a period of thirty years. In conjunction with the closing of the landfill, an environmental engineering firm was engaged to devise a closure plan in accordance with Federal and State Regulations. The \$2,143,071 reported as landfill closure and post-closure liability at June 30, 2006, represents the estimated liability for post-closure monitoring, over the remaining twenty-four years. These amounts are based on what it would cost to perform all closure and post-closure care in 2006. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County has demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 9—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$264,484 is comprised of the following:

Deferred Property Tax Revenue - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$252,690 at June 30, 2006.

Prepaid Property Taxes - Property taxes due subsequent to June 30, 2006 but paid in advance by the taxpayers totaled \$11,794 at June 30, 2006.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 10—Contingent Liabilities:

Federal programs in which the County and all discretely presented component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 11—Litigation:

At June 30, 2006, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

Note 12 —Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

COUNTY OF SUSSEX, VIRGINIA

Notes to Financial Statements (Continued)
As of June 30, 2006

Note 13 – Defined Benefit Pension Plan:

Primary Government:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 with 5 years of service for participating law enforcement officers, firefighters, and sheriffs) or at age 50 with 30 years of service if elected by the employer (age 50 with 25 years of service for participating law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.7 percent of their average final compensation (AFC) for each year of credited service. Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living increases limited to 5% per year beginning in their second year of retirement. AFC is defined as the highest consecutive 36 months of reported compensation. Participating law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <http://www.varetire.org/pdf/2005AnnuRept.pdf> or obtained by writing to the System at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5% of their reported compensation to the VRS. This 5% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The County and School Board non-professional employees' contribution rates for the fiscal year ended 2006 were 4% and 6.50% of annual covered payroll, respectively.

The School Board's professional employees contributed \$487,785, \$437,671, and \$248,150 to the teacher cost-sharing pool for the fiscal years ended June 30, 2006, 2005, and 2004 respectively. The County's current rate is 6.62% of annual covered payroll.

COUNTY OF SUSSEX, VIRGINIA

Note 13 – Defined Benefit Pension Plan (Continued):

Primary Government: (continued)

C. Annual Pension Cost

For fiscal 2006, the County’s annual pension cost of \$167,370 was equal to the County’s required and actual contributions. The required contributions were determined as part of the June 30, 2003 actuarial valuation using the entry age normal actuarial cost method.

For fiscal 2006, the County School Board’s annual pension cost for the Board’s non-professional employees was \$76,133, which was equal to the Board’s required and actual contributions. The required contributions were determined as a part of the June 30, 2003 actuarial valuation using the entry age normal actuarial cost method.

Note 15 – Jointly Governed Organizations:

District 19 Community Services Board

The District 19 Community Services Board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by the participating jurisdictions which include the cities of Colonial Heights, Emporia, Hopewell, Petersburg, and the Counties of Dinwiddie, Greensville, Surry, and Sussex. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Sussex County contributed \$56,449 to the District 19 Community Services Board for the fiscal year ended June 30, 2006.

Fund balances - ending	<u>\$ -</u>	<u>\$ 149,364</u>	<u>\$ 149,364</u>

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

Net change in fund balances - total governmental funds - per above \$ 35,939

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. 6,469,488

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 29,132

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. 150,122

Change in net assets of governmental activities \$ 6,684,681

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To The Honorable Members of the Board of Supervisors
County of Sussex
Sussex, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of and for the year ended June 30, 2006, which collectively comprise the County of Sussex, Virginia's basic financial statements and have issued our report thereon dated November 13, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Sussex, Virginia's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Sussex, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133

To The Honorable Members of the Board of Supervisors
County of Sussex
Sussex, Virginia

Compliance

We have audited the compliance of the County of Sussex, Virginia with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the fiscal year ended June 30, 2006. The County of Sussex, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County of Sussex, Virginia's management. Our responsibility is to express an opinion on the County of Sussex, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Sussex, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Sussex, Virginia's compliance with those requirements.

In our opinion, the County of Sussex, Virginia, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the fiscal year ended June 30, 2006.

Internal Control Over Compliance

The management of the County of Sussex, Virginia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County of Sussex, Virginia's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
